(Authority: 38 U.S.C. 1524(a)(3); Pub. L. 100-227)

(b) *Cases counted as evaluation.* An evaluation is deemed to be countable against the 3,500 limit permitted during each 12-month period when the following conditions are met:

(1) The veteran is provided one or more personal interviews by a counseling psychologist; and

(2) A determination of the reasonable feasibility of achieving a vocational goal is made by the counseling psychologist.

(Authority: 38 U.S.C. 1524(a)(3); Pub. L. 100-227)

(c) *Cases not counted as evaluations.* Computation of the number of evaluations which may be provided in a 12-month period shall exclude cases in which:

(1) The veteran under age 45 awarded pension during the program period is unable to participate for reasons beyond his or her control;

(2) Review of available information does not indicate a good potential for employment of other qualified veterans.

(3) The veteran either fails to keep a scheduled appointment to complete the evaluation or withdraws the claim for an evaluation, or

(4) The veteran who has completed an evaluation requires or requests a re-evaluation.

(d) *Priority.* If a veteran below age 45 for whom an evaluation is required cannot be provided an evaluation during a particular 12-month period because of the limitation on the number of evaluations, the veteran will be given first priority for evaluation during the following 12-month period, or first available subsequent 12-month period, if otherwise eligible.

(8) Period of extended evaluation under 38 U.S.C. 3106(e).

### DURATION OF TRAINING

#### § 21.6070 Basic duration of a vocational training program.

(a) *Basic duration of a vocational training program.* The duration of a vocational training program may not exceed 24 calendar months of full-time training except as provided in § 21.6072 of this part.

(Authority: 38 U.S.C. 1524(b)(2))

(b) *Responsibility for estimating the duration of a vocational training program.* The counseling psychologist is responsible for estimating the time needed by the veteran to complete a vocational training program. The estimate is made in consultation with the veteran and the vocational rehabilitation specialist during the preparation of the IWRP.

(Authority: 38 U.S.C. 1524(b)(1))

(c) *Duration of training prescribed must meet general requirements for entry into the occupation selected.* The veterans will be provided training for a period sufficient for the veteran to reach the level generally recognized as necessary for entry into employment in a suitable occupational objective. Where a particular degree, diploma or certificate is generally necessary for entry into employment, the veteran may be trained to that level.

(Authority: 38 U.S.C. 1524(b))

(d) *When duration of the training period may be expanded beyond the entry level.* If the amount of training the particular veteran needs in order to qualify for employment in a particular occupation will exceed the amount generally needed for employment in that occupation, VA may provide the necessary additional training under one or more of the following conditions:

(1) Training requirements for employment in the area in which the veteran lives or will seek employment exceed those generally needed for employment;

(2) The veteran is preparing for a type of work in which he or she will be at a definite disadvantage in competing with nondisabled persons for a job or business, and the additional training will offset the competitive disadvantage;

(3) The choice of a feasible occupation is limited and additional training will enhance the veteran's employability in one of the feasible occupations; or

(4) The number of employment opportunities within a feasible occupation is restricted.

(Authority: 38 U.S.C. 1524(b)(2))

(e) *Estimating the duration of the training period needed.* The counseling psychologist, in estimating duration of the training period needed, must determine that:

(1) The proposed vocational training program must be one which, when pursued full-time by a nondisabled person, would not normally require more than 24 calendar months of pursuit for successful completion;

(2) The program of training and other services needed by the veteran, based upon VA's evaluation, will not exceed 24 calendar months, if training is pursued on a full-time basis, or 36 calendar months if pursued on a less than full-time basis. In making this determination the following criteria will be applied:

(i) The number of actual months and days of the period during which the veteran will pursue the training program will be counted;

(ii) Days of authorized leave and other periods during which the veteran will not be pursuing training, such as periods between terms will also be counted;

(iii) The period of evaluation prior to determination of reasonable feasibility will be excluded but the actual number of months and days needed to evaluate and improve rehabilitation potential during the training program will be included;

(iv) The time required, as determined in months and days under paragraph (e)(2)(i) through (iii) of this section, will be the total period that would be required for the veteran to accomplish
